NOTIFICATION OF TRANSMITTAL OF INTERNATIONAL PRELIMINARY EXAMINATION REPORT

(PCT Rule 71.1)

Date of Mailing
(day/month/year) **24 AUG 2004**

Applicant's or agent's file reference

367/03301

IMPORTANT NOTIFICATION

International application No.

PCT/IL03/00041

International filing date (day/month/year)

15 January 2003 (15.01.2003)

Priority date (day/month/year)

17 April 2002 (17.04.2002)

Applicant

TRACETRACK TECHNOLOGY LTD.

1. The applicant is hereby notified that this International Preliminary Examining Authority transmits herewith the international preliminary examination report and its annexes, if any, established on the international application.
2. A copy of the report and its annexes, if any, is being transmitted to the International Bureau for communication to all the elected Offices.
3. Where required by any of the elected Offices, the International Bureau will prepare an English translation of the report (but not of any annexes) and will transmit such translation to those Offices.
4. **REMINDER**

The applicant must enter the national phase before each elected Office by performing certain acts (filing translations and paying national fees) within 30 months from the priority date (or later in some Offices)(Article 39(1))(see also the reminder sent by the International Bureau with Form PCT/IB/301).

Where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary examination report. It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned.

For further details on the applicable time limits and requirements of the elected Offices, see Volume II of the PCT Applicant's Guide.

Form PCT/IPEA/409 (cover sheet) (July 1998)

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.

PCT/IL03/00041

I. Basis of the report

1. With regard to the elements of the international application:*

- ☒ the international application as originally filed.
- ☒ the description:
 pages 1-24 as originally filed
 pages NONE, filed with the demand
 pages NONE, filed with the letter of _____
- ☒ the claims:
 pages 25-33, as originally filed
 pages NONE, as amended (together with any statement) under Article 19
 pages NONE, filed with the demand
 pages NONE, filed with the letter of _____
- ☒ the drawings:
 pages 1-9, as originally filed
 pages NONE, filed with the demand
 pages NONE, filed with the letter of _____
- ☐ the sequence listing part of the description:
 pages NONE, as originally filed
 pages NONE, filed with the demand
 pages NONE, filed with the letter of _____

2. With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item.

These elements were available or furnished to this Authority in the following language _____ which is:

- ☐ the language of a translation furnished for the purposes of international search (under Rule 23.1(b)).
- ☐ the language of publication of the international application (under Rule 48.3(b)).
- ☐ the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3).

3. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:

- ☐ contained in the international application in printed form.
- ☐ filed together with the international application in computer readable form.
- ☐ furnished subsequently to this Authority in written form.
- ☐ furnished subsequently to this Authority in computer readable form.
- ☐ The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.
- ☐ The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.

4. ☒ The amendments have resulted in the cancellation of:

- ☒ the description, pages none
- ☒ the claims, Nos. none
- ☒ the drawings, sheets/fig none

5. ☐ This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**

* Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).

** Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report.

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.
PCT/IL03/00041

V. Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. STATEMENT

Novelty (N)	Claims <u>5-6, 34-37, 56-57 and 74</u>	YES
	Claims <u>1-4, 7-33, 38-55, 58-73 and 75-77</u>	NO
Inventive Step (IS)	Claims <u>none</u>	YES
	Claims <u>1-77</u>	NO
Industrial Applicability (IA)	Claims <u>1-77</u>	YES
	Claims <u>NCNE</u>	NO

2. CITATIONS AND EXPLANATIONS

Claims 1-4, 7-33, 38-55, 58-73 and 75-77 lack novelty under PCT Article 33(2) as being anticipated by Bradshaw et al.

Bradshaw et al. teach a method and apparatus for detection of vapors of illicit materials.

Claims 5-6, 34-37, 56-57 and 74 lack an inventive step under PCT Article 33(3) as being obvious over Bradshaw et al.

Bradshaw et al. teach a method and apparatus for detection of vapors of illicit materials. Bradshaw et al. is silent to the claimed flexible mantle, the claimed operation of the blower, the vapor release measures and claimed inflation/deflation of the encasement.

The use of flexible mantles is known in the art and has the advantages of being able to conform to different sized containers. It would have been within the skill of the art to modify Bradshaw et al. and use a flexible mantle to gain the above advantages.

The modification of various different uses of blowers and vapor release are result effective variables and within the skill of the art. It would have been within the skill of the art to modify Bradshaw et al. and use the claimed blower operation and release measures as optimization of a result effective variable.

The least amount of dead air volume around a bag would be to deflate the container around the bag. It would have been within the skill of the art to modify Bradshaw et al. and deflate the encasement around the bag to gain the above advantages of minimal dead air space.
